## COLORS AVAILABLE ON REQUEST:

INVCA Concentrated solvent-based samples.  
INVA Concentrated water-based samples.

## DESCRIPTION:

Easy to remove solvent-based (INV) or water-based (INVA) stains. Particularly suited to the artificial ageing of furniture and for decapè effects.

## APPLICATION:

For spray application as is directly over solvent-based polyurethane, transparent or pigmented base coats that have been pre-sanded. The ageing agent can be removed with 320-grain sandpaper or 3D fiber (codes 048FB60001 or 048FB100001) after 10-15 minutes of drying at 20°C.

## APPLICATION OF SUBSEQUENT COATINGS:

Water-based or solvent-based polyurethane or acrylic coatings.

## LIGHT STABILITY:

EXCELLENT FOR INTERIORS.
